### Load Shedding and Power Information

- The resort is equipped with a backup generator in case of loadshedding or Eskom technical difficulties.
- In the unlikely event of a technical failure with the generator, please be aware that the resort has no battery-operated lighting available, and we will endeavor to work as fast as possible to resolve the issue.
- Certain services and facilities may not be available during loadshedding times- please contact the resort to familiarize yourself with these interruptions.
- The resort may be restricted to operating times and/or duration of the backup generator- due to legislation/regulations in certain areas, as well as generator capacity. Please contact the resort for further information.
- Due to the high running cost of generators a daily generator fuel levy might be applied at the resort to ensure uninterrupted power at your room- Please contact the resort for further information.
