LOAD SHEDDING & POWER INFORMATION

- The resort is equipped with a backup generator in case of load shedding or Eskom technical difficulties.
- In the unlikely event of a technical failure with the generator, please be aware that the resort does not have any battery-operated lighting available. We will endeavour to work as fast as possible to resolve the issue.

- Certain services and facilities may not be available during load shedding times. Please contact the resort to familiarise yourself with these interruptions.
- The resort may be restricted to operating times and/or duration of the backup generator due to legislation/regulations in certain areas, as well as generator capacity. Please contact the resort for further information.
- Due to the high running cost of generators, a daily generator fuel levy may be applied at the resort to ensure uninterrupted power to your room. Please contact the resort for further information.
